Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 27, 2007 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. Claim 32 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Regarding claim 32, the preamble appears to recite a subcombination of an apparatus but the body of the claim contains limitations directed to a combination of an apparatus, a function liquid droplet ejection head and cap.

The metes and bounds of the claim cannot be determined. For example, it is uncertain whether the function liquid droplet ejection head and cap are elements/limitations of the claimed apparatus or merely elements intended to be used with the apparatus. The preamble presents the liquid droplet ejection head and cap as elements intended to be used with the apparatus but the body of the claim recites functional and spatial relationship of the apparatus with the function liquid droplet ejection head and cap.

Response to Arguments

4. Applicant's arguments filed November 27, 2007 have been fully considered but they are not persuasive.

Applicant asserts that claim 32 meets the definiteness requirement of 35. U.S.C. 112, second paragraph but provides no response to resolve the indefiniteness issues identified above. One of ordinary skill in the art cannot make a reasonable determination based on the claim language whether the claimed apparatus comprises the function liquid droplet ejection head and cap.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher S. Kim whose telephone number is (571) 272-4905. The examiner can normally be reached on Monday - Friday, 8:30 AM - 5:00 PM.
